Dear

[Redacted]

25X1

On the basis of the purity and quantity information reported by [Redacted] and [Redacted] of your organization on the five drums of sodium borohydride which we procured for the hydrogen generator tests (purity = 94.6%, weight per package = 100.5 lbs.) I submitted an inspection report requesting that we be refunded for that amount of borohydride undelivered under the terms of the contract (purity = 98%, weight per package = 100 lbs.).
